

# SPECIAL TACTICS EQUIPMENT

 **holmatro**  
mastering power

## Holmatro Special Tactics line

Holmatro offers a wide range of Special Tactics equipment for use by SWAT teams, other police units and Special Operations Forces. The range includes hydraulic breaching, cutting, spreading and lifting equipment for a wide variety of operations. Important features are low visibility, quiet operation, quick and easy use, high forces and optimal portability.

This catalog gives you an overview of our complete Special Tactics line. Please note that you can always find the latest, up-to-date product information on our website [www.holmatro.com](http://www.holmatro.com).

If you have any further questions about Holmatro Special Tactics equipment, please send an email to [tactical@holmatro.com](mailto:tactical@holmatro.com).

# DOOR BLASTER HDB 90 ST

How does it work?

- 1 Complete system can be carried, installed and operated by one person.
- 2 Position door opener in door frame.
- 3 Quick and quiet installation. Press button on door opener to clamp it into door frame within seconds.

- 4 Quiet and extremely fast remote operation. Door open in seconds. Choice between mounted control (on 2 m. hose) and wireless operation (radio range: 328 ft. clear line of sight).
- 5 Remote quick-release function makes door opener drop. Rubber fall protection prevents damage to the tool.

## Charger BCH12

Required accessory for Door Blaster Pack HDB P 240 ST WO.  
To charge the battery of the receiver in the Wireless Control Set.

BCH12

# DOOR BLASTER - HDB 90 ST

**Powerful**

- Suitable for use on high-resistance, multiple lock, inward opening doors.

**Extremely fast & quiet operation**

- As fast as explosives without flying debris.
- Opens a door in seconds.
- Pneumatic-hydraulic drive: no sound from the pump.

**Repetitive use possible**

- No interruption of your operation.

**Lightweight with compact dimensions**

- Carrying, installation and operation by one person; saves manpower.
- Limits risk of making noise by knocking into things.

**Equipped with remote control**

- To activate door opener from a distance.
- To quickly release door opener from a distance.
- Easy: pushing a button is all it takes.

**Pump, air bottle and converter in practical backpack**

- Easy carrying by one person.
- With PALS webbing to hold additional equipment (e.g. extra air bottle).
- Quick-release clasps for immediate release of backpack.

**Wireless Control Set**

- To operate the Door Blaster from a distance up to 100 m.
- Battery charging and connection to backpack with one single cable
- Stand-by mode of 48 hours
- Various feedback functions on remote control: connection status, action complete status of pushing cylinder, action complete status of quick release function, battery status of both receiver and control unit

**Push button on door opener for clamping**

- Quick and easy installation.

# HOLMATRO'S LIGHTWEIGHT BREACHING SET

The Lightweight Breaching Set is a compact and portable hydraulic breaching solution, developed and composed in coordination with the U.S. Military. The set consists of a battery-powered backpack pump, a powerful door ram, a combi tool for cutting and spreading and a special materials cutter to cut hardened steel. The tools are connected to the backpack pump by means of a short hose.

# FORCIBLE ENTRY TOOL T1

T1

| specifications                 |     | T1          |
|--------------------------------|-----|-------------|
| art. no.                       |     | 151.001.787 |
| spreading distance             | in. | 5           |
| max. spreading force           | lbf | 7,419       |
| min. spreading force 25 mm tip | lbf | 5,845       |
| max. cutting opening           | in  | 1.1         |
| theoretical cutting force      | lbf | 31,248      |
| round bar (S235)               | in  | 0.7         |
| weight, ready for use          | lb  | 17          |

### Multifunctional tool

- The T1 can hammer, cut, spread, lift, wedge and ram. This means you always have the right tool for the job.
- The wedge is detachable, meaning no second person or tool is needed for creating the first gap.
- Having all these functions in one tool also saves weight and space in your vehicle.
- The T1 is a stand-alone tool, so you won't need batteries or an external pump.

### Optimized cutting blades and jaw design

- The T1 can easily cut rebar, chain and padlock.
- It can cut up to ø 0.7 in of round bar (S235).
- You can easily replace the cutting blades when they are damaged.

### Spreading tips

- For opening heavy doors in a controlled way
- The load-holding function makes the tool suitable for lifting and progressive lifting
- You can also use the spreading tips to create space in vehicles.

Pentheon - Batteries, chargers and cables (see page 23)

Compact, lightweight and well-balanced

- Easy to carry, handle, transport and store
- Ideal for use in confined spaces

Extended working time thanks to:

- A purpose-built battery with increased capacity
- The energy efficiency of our patented mechatronic drive technology.
- An Auto Start/Stop function.

Minimum sound level

- If the tool is switched on, the engine will only start running when the control handle is activated/turned. When the controle handle is released, the engine and sound stop immediately, but the tool is still stand-by and ready for action.

Unparalleled speed & ultimate control

- Fastest combi tools on the market, thanks to stepless speed maximization. With two-mode control handle for superior speed control.

Discover all features and benefits of the Holmatro Pentheon Series on [holmatro.com/pentheon](https://www.holmatro.com/pentheon)

Standard supplied with:

- i-Bolt technology \*
- 360° rotatable & fold flat carrying handle

\* Flat central bolt construction squeezing the blades together directly to minimize blade separation and maximize cutting performance

Extremely compact and ultra-lightweight

- Easy to add to your existing kit
- Easy to carry, transport and store
- Carrying handle 90° foldable for extra compactness
- 

Optimal performance to weight ratio

- Extremely high spreading force (CT 5111) compared to size and weight
- High cutting force compared to size and weight

Multifunctional

- Suitable for cutting, spreading and squeezing
- Suitable for dive operations/under water use
- Suitable for a variety of applications, ranging from forcible entry to extrication of persons trapped

360° rotatable aluminum carrying handle

- Continuous swivel with 11 locking positions
- For use of the tool in almost any position

Low visibility

Quick operation with backpack pump (see page 15)

Standard supplied with:

- i-Bolt technology \*
- 360° rotatable pump handle
- 360° rotatable carrying handle
- fold flat pump and carrying handles

\* Flat central bolt construction squeezing the blades together directly to minimize blade separation and maximize cutting performance

# HAND-OPERATED COMBI TOOLS

### Extremely compact and ultra-lightweight

- Easy to add to your existing kit
- Easy to carry, transport and store
- Carrying handle and pump handle 90° foldable for extra compactness

### Optimal performance to weight ratio

- Extremely high spreading force (HCT 5111) or spreading distance (HCT 5117) compared to size and weight
- High cutting force compared to size and weight

### Multifunctional

- Suitable for cutting, spreading, squeezing and pulling (pulling only 5117 model)
- Suitable for dive operations/under water use
- Suitable for a variety of applications, ranging from forcible entry to extrication of persons trapped

### Integrated 2-stage hand pump

- Quiet operation
- Self-contained for optimal freedom of movement
- Rapid deployment
- Easy operation: simply fold out the pump handle and start pumping

### 360° rotatable carbon fiber pump handle

- Can be locked in 22 positions
- For use of the tool in almost any position

### 360° rotatable aluminum carrying handle

- Continuous swivel with 11 locking positions
- For use of the tool in almost any position

### Low visibility

#### Non-slip selection ring

- Easy intuitive selection of spreading or cutting
- Offers good grip

| integrated lighting / i-Bolt          |      | √ / √       |

- Cordless design**
- Immediately ready for use
  - Maximum operational freedom
  - Requires minimal space in the rescue vehicle

| required accessory            | art. no.    |
|-------------------------------|-------------|
| Battery charger CBCH2 (AC-US) | 159.000.212 |

- Superior cutting performance**
- Unique inclined cutter jaw for more freedom in positioning the tool
  - Grip teeth on both blades for extra bite when cutting
  - Suitable for cutting rebar, fences, steel bars and chains (grade 43)

- Smart battery technology**
- Up to 70 cuts with one 2Ah battery
  - LED light powered by the main battery
  - Part of the Cordless Alliance System (CAS):  
Battery compatible with other professional power tools

- Optimum tool control**
- Variable speed control: push the button further down to increase the tool's speed
  - Start-stop mode to save valuable battery time
  - Control slide to switch between opening and closing the tool
